

What Happened Next?

Holy Week devotional activity for the whole family.

Grab a Bible and gather your family to read each Bible verse carved on the small stones below. Put the stories in the order in which they happened. Write the letter from each stone in the correct space on the large round stone. For example, the story that happened first is found in John 12:1-8 when Mary poured her jar of perfume on Jesus' feet. That stone has the letter "J," so "J" is written in space number 1. If you write the letter for each story in the correct space, you will spell the most important event of all time!

The tomb in this photo is believed to be the actual tomb where Jesus rose from the dead.
